

Mahi that earns its proof.

Specialist agents. Human review. Evidence packs.

WHAT IT IS

Assembl is a New Zealand platform for specialist agents that turn operational mahi into reviewable, evidence-backed workflows.

WHY NOW

Agent-assisted work is moving from experiments into operations. The organisations that win will be the ones that can prove how the work was done.

PILOT SPRINT

A focused entry point to map one workflow, design the agent process, set human review points, and produce an evidence-pack demo.

- From \$5,000 + GST
- No public duration commitment
- Designed for one painful workflow

KETE

- Waihangā - Construction
- Manaaki - Hospitality
- Pūkai - Logistics
- Aratāki - Automotive & Fleet
- Auaha - Creative
- Ako - Education
- Mātauranga - Knowledge
- Hoko - Commerce
- Tōro - Family

PRICING

- Pilot Sprint from \$5,000 + GST
- Industry Pack \$5,000/month
- Outcome pricing from \$5,000+ for custom multi-kete work

PROOF LAYER

- Grounded in NZ operating context
- Reviewed by a named person
- Sources, assumptions and checks captured
- Evidence pack produced for every workflow

BEST FIT

- Teams with repeatable operational work
- Sectors where trust, context and review matter
- Founders and leaders who want adoption, not theatre

Bring one workflow. We will show you what proof can look like.
